

BOXIN FOOD INTERNATIONAL LIMITED

"那堪正漂泊，明日歲華新."
「The old has gone, the new is here! 」

Our plant was established in 2001, which is located in the Bohai gulf. We specialize in deep-processed products such as boiled ferri/sea scallop, bay scallop meat, and formed bay scallop. We also offer OEM processing services. Our products are exported to Japan, Canada, the USA, Southeast Asia, Australia, Mexico, Korea, and more.

We operate advanced processing equipment, including IQF machines, X-ray scanners, steaming lines, and a complete cold chain system, ensuring stable quality and efficient production.

Now we expanded into trading to support our continued growth. Boxin's business goes beyond scallops.

Even with big challenges, we still believe tomorrow is promising.
